1. Introduction

This is the TCR of Sprint 2 for the project: nectar.com , in which testing was performed in order to verify the quality of the website www.nectar.com and ensure that the product has as few defects as possible. The testcases were executed.

from 30/01/2023 to 31/01/2023 by Alexandru Pocovnicu. A total of three test cases were executed with 100% of them passing and an additional exploratory test was performed which resulted in fail.

2. In Scope
